TABLE OF CONTENTS

INTRODUCTION	1
1.1. Project Objectives	2
STUDY AREA	3
2.1. Little Drywood Creek	5
2.2. East Fork Crooked River	8
2.3. Heaths Creek	11
MATERIALS AND METHODS	14
3.1. Data Collection Activities	14
3.2. Data Analysis Techniques	15
2007 STUDY SEASON RESULTS	18
4.1. Quality Assurance Summary	18
4.2. Reference Stream Continuous Data	18
4.3. Reference Stream Discrete Data	30
4.4. Tributary Discrete Data	35
4.5. Stream Metabolism Rates for 2007 Study Season	37
4.6. Dissolved Oxygen Correlations for 2007 Study Season	38
COMPARISON OF 2006 AND 2007 RESULTS AND DATA TRENDS	42
5.1. Comparison of 2006 and 2007 Study Conditions	42
5.2. Trophic State Differences and Stream Metabolism Trends	42
5.2. Comparison of 2006 and 2007 Continuous Data Results	43
5.3. Comparison of 2006 and 2007 Dissolved Oxygen Correlation Results	45
5.4. Influence of Streamflow on Attainment of Critical Dissolved Oxygen Concentrations in Study Streams	45
DISCUSSION	48
6.1. Prevalence of Dissolved Oxygen Concentrations Below Critical Thresholds	48
6.2. Trophic State and Stream Metabolism	48
6.3. Factors Influencing Dissolved Oxygen in Missouri Reference Streams	49
6.4. Water Resource Management Implications	50
PROJECT CONTACT INFORMATION	58
REFERENCES	59

Table 21. Major Logistic Regression Model Parameters and Fit Summary ($\alpha = 0.05$).

APPENDICES

- Appendix A. 2007 AERDOR Quality Assurance Report.
- Appendix B. 2007 Data Fact Sheets.
- Appendix C. Landuse Statistics for AERDOR Study Areas 2005 Thematic Mapper Imagery.
- Appendix D. Historical Biomonitoring Data Collected From AERDOR Streams.
- Appendix E. Determination of Baseflow at AERDOR Sites.
- Appendix F. Parameter Summary Statistics.
- Appendix G. Stream Metabolism Summary.

ACKNOWLEDGMENTS

The U.S. Environmental Protection Agency funded the Assessment of Ecoregional Dissolved Oxygen Regimes (AERDOR) project through the Ecological and Water Resource Assessment Project (EWRAP) grant. The EWRAP grant is managed by the Environmental Resources Coalition (ERC) in Jefferson City, Missouri. Data collection efforts were performed collaboratively by ERC and MEC Water Resources, Inc. Data analysis and interpretation for the AERDOR project were performed by MEC Water Resources, Inc. (MEC) located in Columbia, MO.
